# Dataset

Our dataset is sourced from the National Oceanic and Atmospheric Association. It includes storm data for the United States of America from 1950 to 2018.

<https://www1.ncdc.noaa.gov/pub/data/swdi/stormevents/csvfiles/>

# Goal

Our goal is to provide visual insight into tornado activity over the past half century.

→ **Frequency**

We want to show areas where tornadoes are common.

→ **Magnitude**

Display power of these tornadoes based off the EF Scale. .

→ **Predictions**

Use the data to provide rough estimates about future tornado activity.
